Tools : Git, Docker, Linux

Language Communication

Bahasa Indonesia (Native),
English (B2-Intermediate)

Portofolio

 <https://github.com/uchihamadara37>

Experience

Casting - Head Cylinder Operator

PT Yamaha Motor Parts Manufacturing Indonesia
(December 2020 - December 2021) - Karawang, Jawa Barat

Operating molding machine to cast motorcycle engine block for head cylinder from raw materials to semi-finished product.

Fullstack Developer Internship

PT Siegan Teknologi Berdikari
(March 2024 - October 2024) - Sleman Yogyakarta

Here, I was trained to become a full-stack developer. I was also responsible for building Restful APIs, websites, and desktop applications using Java programming.

Frontend Flutter Internship

PT PLN (ULTG Yogyakarta)
(February 2025 - May 2025) - Bantul, Yogyakarta

Building a responsive frontend interface for a PLN equipment loan management application based on the Android platform using Flutter framework.

Frontend Web Developer

PT Farma Global Teknologi (Farmagitechs)
(May 2023 - December 2023) - Sleman, Yogyakarta

Build XML interface with Jasperreports and integrate it into the website which will later become a form using Vue.js framework.

Cohort Bangkit - Machine Learning Path

Bangkit Academy - Powered By Google, Goto, Traveloka
(September 2024 - December 2024) - Remote

This is the Certified Independent Study and Internship (MSIB) program implemented by the Kemendikbud. I developed both my hard and soft skills. I learned about AI development and built AI applications with a team.

Frontend Developer (Next.JS)

Upwork (London, UK)
(August 2025 - September 2025) - Remote

Helping with computational efficiency and revising many UI bugs of a crypto trading website built using Next.js and ShadCN.UI.

Project

- PLN Inventaris: Flutter
- Waste Wise: Mobile App Waste Classification (Computer Vision)
- Job Recommendation System: (Content Based-Filtering)
- InvoiceManager: Java & JavaFx
- Network Traffic Prediction: Time-Series
- etc.

Working Case

- GCP (Google Cloud Platform) Deployment
- Vercel, CI/CD, Docker
- Rest API Development, JWT Auth, Middleware
- Design UI/UX
- Postman, Insomnia test
- Linux VPS
